# 所謂二大法令의發布（二）

一

다음에産業組合은 組合員의産業又는經濟의發達을 企圖하기爲함이 그의 目的이라함은 法文에明示하여잇다 그런데이러한制度는 멀리百有餘年前에英國에서端을發하야 佛蘭西、獨逸等을經하야 日本서는明治三十三年부터 이의制度가實施되엿고 爾來累十年에자못顯著한發達을보여왓다 이제過去에잇는産業組合發達經路를차저보면 極度의資本主義經濟發達을따러 中商은大商에서 小農은中農에서着着倂呑되고마는故로中産階級以下의小資本으로는 到底히業에安키어려운지라 그럼으로小資本의集的으로서 可能한範圍에서 大資本에게對抗하야 僅僅히現狀維持를圖하자는데다시말하면弱者의悲哀를土臺로서울어난制度이엇다 이는朝鮮에서今般實施케되産業組合의使命도 中産以下의階級이共同扶助로써各自産業經濟의發達을圖케함은 總督府當局者의聲言한中에도잇다

二

그런데 이제朝鮮産業組合令의內容을보면 그의業務範圍는 ……

……이다 그러면이러한今日의金融組合으로서 能히産業組合의信用事業인技能을發揮식힐可望이잇슬는지?

四

또는金融及産業兩組合이倂存할을따러 兩者의機關이倂立할것이니 이倂立한兩機關의職權爭議 又는兩當務者의個人感情等으로因하야 組合員에게주는不利와弊害가만흔것은從來의地方官公署及이에類한各種團體間의軋轢으로因하야 地方民이입던弊害의實例에비취어豫測하기어렵지안타하물며傳하는바에依하면 今般産業組合令을發布함에잇서서 當初에는金融組合廢止說外지잇섯스나 殖産局財務兩局의不協調 即職權爭奪로因하야 結局이러한畸形的産業組合令을發布함에至하엿다한다 朝鮮官吏의本陣인總督府부터이러하거던 地方小吏輩에이르러서야 다시말하는者ㅣ오히려어리석을것이다 그럼으로産業組合에서 그의骨子인信用事業을除外하고 特設한金融組合과提携하야 그의發達을圖코자함에는

五

實로莫大한困難을感할것이다 뿐만아니라 前述함과가티地方農村의金融狀況이 一個의金融組合만으로서滿足치못하는今日에잇서서 다시一步를進하야 信用組合의制度를實施앗이 무는拘碍될이잇스랴 或은말하되 經費의關係로서이라하리라 그러나當局者의聲言한바에依하면 産業組合令은비록三月一日부터實施한다하더라도 一時그의設立을强制할것이아니라 漸進的으로隨時必要에應하야 設立을圖하겟다하엿스니 그러면別로히一時에巨額의豫算을要치도안할줄로斷한다 要컨대農會에잇서서 基本單位의區域을廣大한郡으로써하며 機關의任命權을當局이掌握한等 官權萬能의制度를取하야 그의根本精神인自發的活動의途를斷케하엿고 産業組合에잇서서 그의骨子인信用産業을除外하야 畸形的制度를奮케할것이 이번에發布된所謂二大法令의特徵이라하여두자（完）

### FLOOD SUFFERS IN KOREA. (2)

The helper said that there are 79 families of 363 people who have not eaten for a day or two. The Myun is doing nothing for these people and they have helped the less desperate ones with chicken and pigs. we urged him to go to the Myun head once more and ask that the government officials told us that they had given money for helping the starving. He went at once and told the whole pitiful story in the strongest terms possible adding that the foreigners said that money had been given enough to feed the truly desperate. The Myun head said they had no funds whatever. He admitted that the people were at death's door and asked what plan of help would be good. Chung said that ¥500.00 would keep the starving alive on millet for a month and what he would suggest would be to say no more about chickens and pigs but give this ¥500 for the dying. The head said he would discuss it. In the afternoon he was called to the office and told that ¥500 was absolutely not to be thought of. That sum there would mean tens of thousand through the province and there was no slightest chance of getting it. The subject was not to be hinted at to the people. He added with perhaps some fear in his mind, "Even though you rise up and tear down the head office there is no hope of that sum of money. "He said they would feed 9 families of 21 people for a time."

We went to one home where a family of ten lived. They had had no food since the noon before and no fire. The old grandmother lay under a charity comfort in one corner. We asked if she were sick and were told that she was simply so cold that she had taken one of the children to warm her up and crept under the quilt. Their faces were all badly bloated from starvation. We met a blind woman Who lives in a dug out, on her way to get a little sack of millet from the helper. Her face was much bloated. Another home with a family of five had no fire nor food for some time. All were bloated. The wife had on summer trousers. Here and there we saw happy folks rushing home with a measure of grain from the store we had brought them: enough to keep the most desperate alive one or two days. —Kobe Chronicle.
